COVID Protocol

Following the rules of the Luxembourg government and applying the FORMIR guidelines of the FIE the following protocol will be enforced:

You are a responsible person. Before your departure it is advised to enforce physical distance and protective measures even more than usual. Even if you do not need rapid antigen testing (RAT) it may be helpful to test yourself and possibly will avoid an isolation abroad.

1) Entering Luxembourg : The regulations of the Grand-Duchy apply : <https://covid19.public.lu/en/voyageurs/visiter-luxembourg.html>

2) Registration to the competition:

Every participant must undergo a RAT. This operation is subsidized by the FIE. The tests are free to athletes and referees. Supplementary people must pay for the tests.
People who suffice the Luxembourg "Covid-check" regime (Vaccinated, healed or tested) will not need to repeat the test. Everybody else will need to repeat the test after 48h.

Identification of tested people is done via a bracelet. Losing the bracelet will require retesting for a fee (15€).

Being present in the competition without bracelet is associated with not having been controlled. It is an infringement to covid regulations in Luxembourg and may be pursued by law enforcement. Authorities will be able to control at any moment.

Also note that the validity of the RATs done at the competition are only valid for the event.

3) Departure tests:

If you need a departure test you will need to make a reservation with the OC. The tests cost 65€ and will be at your charge.

Tests will be done on Friday 03.12.2021 between 12:00 and 14:00 and Saturday 04.12.2021 between 08:00 and 10:00. Results will be available before 08:00 the next day.

To guarantee that we will be able to handle the required testing volume you need to obligatorily communicate the number of the required tests by November 22nd 2021 latest.

We will then confirm you this number and send you a form where you will need to put in the names of the people to be tested. You will need to send us this form by December 1st 2021 latest.

No test can be guaranteed that had not been registered within the deadlines.

4) Positive testing

The OC is required to transmit the full dataset of every person tested positive to the authorities. Legislation requires that persons tested positive be isolated immediately. The isolation will last until the authorities lift it or a negative PCR-test is available.

5) Controlling positive RAT via PCR

If a RAT returns positive the tested person must immediately go to his room. If there is enough time a PCR test will be done to control the result of the RAT.

No control test can be done on Friday after 14:00 and on Saturday after 10:00.

Hence if a person tests positive at a RAT after these deadlines the result is final and the person must stay in the room until further notice.

Departure tests and control tests are conducted by the Laboratory KetterThill, agreed by the ministère de la santé.

6) For logistical reasons we cannot guarantee the care of people who make reservations on their own. Therefore, in order to get the adequate service you **MUST** reserve in the official hotel using the official form.

7) In the unlikely event you will get ill in Luxembourg a performant medical system with affordable healthcare is available. Citizen of the EU get free treatment according to the European treaties. Please make sure you bring the European health insurance card. Third countries sometimes have agreements or subscribe to an ad hoc insurance that covers covid. These insurances rarely cost more than a few euro.

Precise locations for registration and testing will be communicated later.

Mask wearing is regulated by the FORMIR.
