## ABOUT KFAR SABA

*Kfar Saba was founded in 1903 and is currently celebrating its 100th anniversary. The foil competition will be held in conjunction with this anniversary.*

*Although Kfar Saba is a suburb of Tel Aviv, located approximately 30 km from Ben Gurion International Airport and 25 km from Tel Aviv, it boasts a quiet atmosphere while providing housing to 90,000 warm-hearted citizens.*

*Kfar Saba was founded primarily on the precept of farming and its farmers mainly grew oranges and various other citrus fruits. However, due to the industrialization of the town about 40 years ago, farming began to wane and therefore fewer of its citizens earned an income from agriculture. Kfar Saba is now a thriving community which mainly earns its income from the high-tech industry. Kfar Saba also enjoys a reputation of high educational standards and serves as an example to other Israeli cities. Sports is also wholly integrated into the educational curriculum and is considered an important aspect of education. These sports include soccer, volleyball and, of course, fencing.*
