Tournament system

On Saturday the intention is to fence as much as possible in a friendly atmosphere

The team event on Saturday is mixed, the only requirement is that a team consists of 3 or more fencers on one weapon. Foil and Epee will be fought according to the Swiss system that is derived from chess. Basically after the first round a team that has won will fence a team that has won in the previous round. All équipes will fence 6 or 7 rounds after which the winner will be known.

On sabre the system will be a poule unique with Direct elimination.

On Sunday one or two preliminary rounds will be fenced followed by direct elimination without recharge. The choice for one or two preliminary rounds will be made after appel. When there are not enough participants for Womens sabre the preliminary rounds will be mixed.

Material

All material should meet FIE standards. There will be a material and repair stand available on both days.

We hope to welcome you on the 19th and the 20th of March.
With kind regards,

The Pallós fencing club
